

The year passed has been good to us although we did not get a new mobile home. The biggest event is to have become Mothers Father and Mothers Lotta and Fredde

Lotta, Mille and Fredde in December 2008

The team on its way to Canary Islands

got a son, Mille, on 24 May. The year started with a trip to Canary Islands to celebrate Björn's father in law Roine being 70 years.

In April was the last meeting in Russia for Claes in the 10 years long project in Arkhangelsk region on primary care.

Our house project of the year has been painting the roof. As Tiiu did not want to risk her "home service" we had professional doing the work.

On its way to be green the roof turned yellow!

As a construction was built Claes painted the front wall of the house. In the beginning of September it was time to join our friends, the families Kährström, to Turkey. During the autumn we have built the Moomin house

Helga, Alva, Herman and Birk at a pancake party in our play house.

In August Mille, Arne Kährström was baptized

that Helga and Herman got as birthday present from us. In October Tiius mother Helga moved from Uppsala to a home for elderly here in Härnösand.

During December we and all our family (including our children, their wife/husband and all 5 grandchildren) made a trip to Egypt to celebrate that Claes has reached the age of a pensioner. Although pensioner he works halftime as a doctor in homes for elderly people.
