

Every year seems to be shorter and shorter! Here comes our Christmas greeting!

In February, it was the annual meeting with our friends. We have met since 1960 on the closest Saturday to 9 February. Early it included our children and now also our grandchildren.

We have made engraving of glass during some years. Here Herman is decorating.

Even this year Mille and Mimmi made sugar eggs. Here guided by mother Lotta.

As usual we made a trip so see all the canes at Hornborgasjön. A fascinating scenery in front of our mobile home!

In May, we got solar cells on top of our roof. They produce electricity for our need. I they produce more than that – we can sell it.

Our house with the solar cells mounted.

On our way to the annual meeting in May with the Club of Nordic Motorhomes we picked up Siiri at Arlanda. Here we are staying overnight in Kristinehamn.

All participants at the annual Whitsuntide meeting of the Club of Nordic Motorhomes.

A coffee break in our garden.

A visit to Grisslehamn to see the renovations Anni, Björn and Herman are doing.

The national day, 6th June, at the open-air museum, Murberget, we saw Birk in the front of the parade of scouts.

As usual we visited the trade markets Nolia- and Elmia. Tiiu found a proper place for person with a burden ("Last-plats" = Place for burdens).
